

Fetch Update Release 3.36

April 9, 2024

The Fetch logo, consisting of the word "fetch" in a white, lowercase, sans-serif font, is positioned on a blue background that features a curved, wave-like shape. A thin red line is visible at the top edge of the blue shape.

New Software Update

We're in the process of updating Fetch Mighty, Mini and Mini 4K boxes with our latest software release 3.36 Grevillea.

What's new in this release:

- ✓ We've updated the TV Guide with a smoother scrolling action, and program details at the top of the page for improved visibility and access to show and movie information.
- ✓ Preparation for a new 9Now app coming on 30 April.
- ✓ Changes to allow future in-app purchases within Apple TV+ (excluding Gen 3 Mini boxes).
- ✓ General bug fixes.

You can [watch our short video](#) for a quick look at the changes.

Tentative Rollout

If all goes to plan, the release schedule is shown below. However, all dates are subject to change.

Retail – in three batches. 9 April (5k), 15 April (20k) and 18 April (balance)

Telstra – 22 April

Aussie Broadband and Dodo / iPrimus – 22 April

Optus – 24 April

iiNet / Westnet / Internode / Adam – 26 April

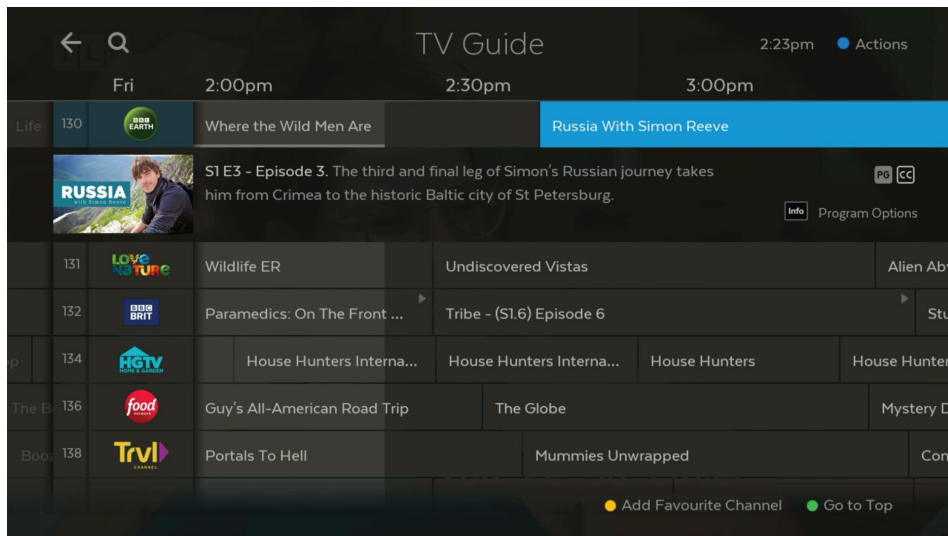

Boxes should automatically update within 72 hours of the release to each Retail / ISP grouping. Customers can reboot their Fetch box for immediate access once the roll out to their service provider has started.

All Fetch boxes (excluding Gen 2 hardware) are expected to have updated to the release by 30 April.

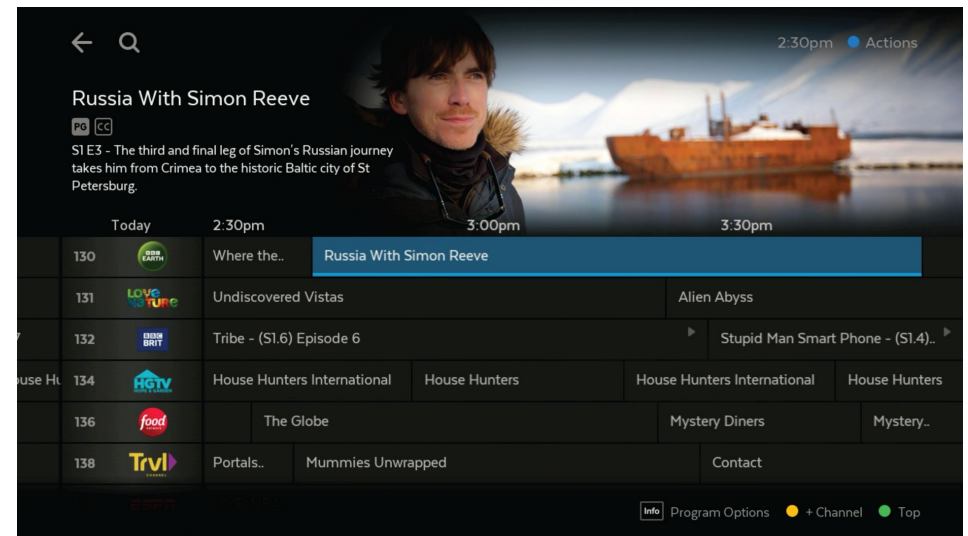

Updated TV Guide - Program details

- The TV Guide has been rebuilt using the Lightning framework, delivering a smoother scrolling action.
- Program details are now displayed at the top of the screen for improved visibility and access to show and movie information.
- Although it looks different, the functionality of the Guide remains unchanged.
- The same amount of channels are displayed on screen at one time.
