

Fetch Update Release 4.6

5 September, 2025

New Software Update

Release 4.6: Gardners Bay

fetch

Overview

We're rolling out a new firmware update (version 4.6) to keep your Fetch box running smoothly, with improvements across speed, stability, apps, and bug fixes.

This update applies to:

- Gen 3 Mighty
- Gen 4 Mini
- Gen 4 Mighty
- Gen 5 Mini

Not sure which Fetch device(s) you have?

Go to Menu > ⚙ > Device Info to check your model number (#):

- Gen 3 devices:
 - Mighty 3 (#M616T)
 - Mini 3 (#H626T)
- Gen 4 devices:
 - Mighty 4 (#M681T)
 - Mini 4 (#H671T)
- Gen 5 devices:
 - Mini 5 (#HY4424)

Release Schedule

The rollout of Release 4.6: Gardners Bay is planned to begin on **29 September 2025** and will be delivered in batches. The update is expected to be completed across all eligible Fetch devices by the week of **15 October 2025**.

Please note: The release schedule is indicative only and subject to change.

App Enhancements

- **SBS On Demand:** Smoother playback and navigation
- **YouTube:** Smarter recommendations directly in Fetch search results.
- **ABC iView:** Updated deeplinking support
- **AndApps:** Enjoy the latest features and seamless app updates. Please note that you may need to log in again to some apps after the update

Recording and Playback Improvements

- **More reliable recordings:** Improved scheduling, starting, and saving
- **Playback fixes:** Resolved errors and cancelled recording issues
- **Multi-room support:** Better recording performance on Gen 3 Mighty and Gen 4 Mighty

Easier Troubleshooting & Stability

- **Speed Test:** Now easier to find in Settings, making it simple to check your internet connection

- **Error Tracking:** Behind-the-scenes improvements to help us fix issues faster in the future.
- **Reliable updates:** A smarter system ensures updates complete successfully and helps prevent failures during the process

Help & Support

If you experience any issues after the update, try restarting your Fetch device. You can also run the new Internet Speed Test in Settings to check your connection.
